ABOUT

Chameleon Concepts new Luxe Collection embodies elegance and grace in a bathroom vanity. Each vanity is created seamlessly with beautiful rounded edges and two (2) graceful front legs. The interior of each vanity features two functional and practical drawers. The Luxe Vanity Collection is a wall-mounted vanity and is available in 3 sizes; 30", 36" and 42" and 3 high gloss lacquer colors; black, white and navy.

Chameleon Concepts was founded in 2014 as an innovative bathroom vanity brand that celebrates luxury without compromising on functionality.

Years after inception, Chameleon Concepts is still going strong creating beautiful bathroom furniture. Chameleon Concepts is continuously adapting to stand apart and not blend in. Each of our collections feature timeless and classic pieces that are always in stock but never out of style. With an expanding team and a focus on new collections, outreach and business developing, Chameleon Concepts is raising the bar in the vanity industry.

LUXE COLLECTION

MATERIAL SPECIFICATIONS

MATERIAL SPECIFICATIONS

Material

~Our vanities are manufactured using medium density fiberboard (MDF). MDF is produced by dry-pressing timber fibers together with synthetic resins to bind them. It has a plain homogeneous structure with a surface finishing resulting in smooth sides and edges. This allows it to be a perfect material for lacquers. MDF can be cut, milled, and mechanized efficiently. The 2 front legs of each unit is made from beech wood which allow us to mold the rounded edges.

~ Our countertops are made from solid surface which is a man made material compised of acrylic polymer and alumina trihydrate. Solid surface is a non-porous and low maintenance material.

Finishing & Interior

Our vanities are finished with multiple layers of high gloss paint and polished to perfection. The interiors of our vanities are painted as well to achieve an overall elegance. Each vanity has 2 functional drawers with plumbing cutouts.

Installation

Each vanity is wall hung using a unique metal bracket that is provided. The vanity back is open for ease of installation.

Internal Hardware

Each vanity is outfitted with Blum glides and feature a soft close system. The drawers are ultra slim to maximize their use and capacity.
