# ABOUT

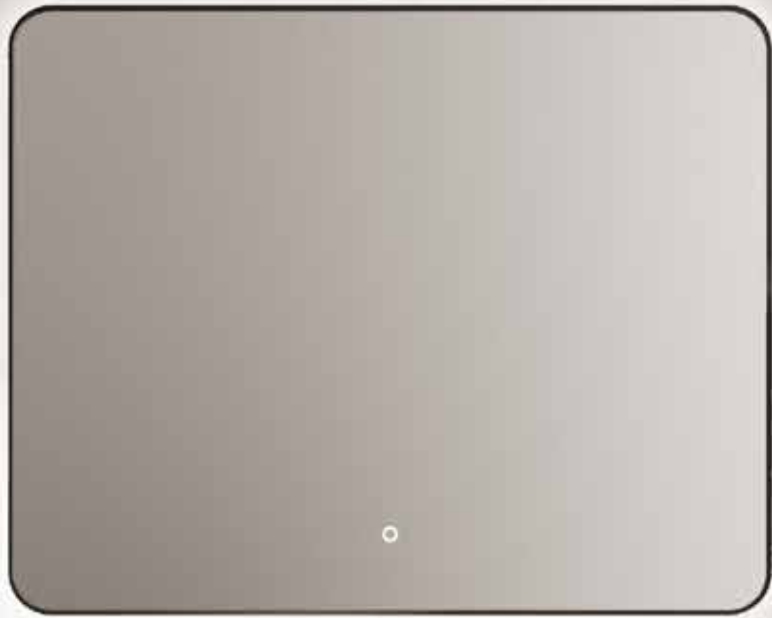

---

Tap into classical design with Chameleon Concepts Linear Collection Vanity. The vanities high gloss fluted texture can be styled into many different bathroom designs. Each vanity has two functional and practical interior soft closing drawers. The Linear Vanity Collection is a wall-mounted vanity and is available in 3 sizes; 24", 30", 36" and 3 high gloss lacquer colors; black, white and taupe.

Chameleon Concepts was founded in 2014 as an innovative bathroom vanity brand that celebrates luxury without compromising on functionality.

Years after inception, Chameleon Concepts is still going strong creating beautiful bathroom furniture. Chameleon Concepts is continuously adapting to stand apart and not blend in. Each of our collections feature timeless and classic pieces that are always in stock but never out of style. With an expanding team and a focus on new collections, outreach and business developing, Chameleon Concepts is raising the bar in the vanity industry.

## MATERIAL SPECIFICATIONS

## MATERIAL SPECIFICATIONS

---

### *Material*

~Our vanities are manufactured using medium density fiberboard (MDF). MDF is produced by dry-pressing timber fibers together with synthetic resins to bind them. It has a plain homogeneous structure with a surface finishing resulting in smooth sides and edges. This allows it to be a perfect material for lacquers. MDF can be cut, milled, and mechanized efficiently. The 2 front legs of each unit is made from beech wood which allow us to mold the rounded edges.

~ Our countertops are made from solid surface which is a man made material compised of acrylic polymer and alumina trihydrate. Solid surface is a non-porous and low maintenance material.

### *Finishing & Interior*

Our vanities are finished with multiple layers of high gloss paint and polished to perfection. The interiors of our vanities are painted as well to achieve an overall elegance. Each vanity has 2 functional drawers with plumbing cutouts.

### *Installation*

Each vanity is wall hung using a unique metal bracket that is provided. The vanity back is open for ease of installation.

### *Internal Hardware*

Each vanity is outfitted with Hettitch glides and feature a soft close system. The drawers are ultra slim to maximize their use and capacity.
